

Welcome to IVEC

IVEC is an industrial representative for various manufacturers of passive and electro-mechanical components in Bavaria and Baden-Württemberg (only ACP und Copal). Whether resistors, inductors, film capacitors, potentiometers or different switch variants, the manufacturers which we represent are distinguished by high quality standards, good customer service and high supplier reliability.

Our goal is to provide the best possible technical and logistical support for the procurement of passive components. Please examine our Website to gain an impression of our range of services and those of our manufacturers.
